DUTY.

It's now Mayor Buchemeyer and the duty of every citizen to give him hearty support. Never were Louisville's prospects brighter, and it should be the sole endeavor to make the city larger and better and, if possible, eclipse the splendid administration of ex-Mayor Head.

WITHOUT SCRUPLES.

Christian workmen, American workmen, should not longer shut their eyes to the dangers that lurk behind Socialism. Fred D. Warren, who edits the Appeal to Reason, comes out boldly and proclaims the real Socialist doctrine. Hear him: "I believe in the confiscation of the productive property of this nation by the working class. I do not believe in confiscating it by piecemeal. That would be foolish and illegal. The plan I favor is that the working class should first capture the political powers of the State and nation and then the job can be done without danger of getting cracked skulls and prison sentences. * * * I have no conscientious scruples against the use of any method, direct or indirect, that will secure to the working class possession of the machinery of production. But I think entirely too much of my head to risk butting it against a stone wall in the shape of a policeman's club wielded by a man who takes his orders from capitalist politicians." Here you have the Socialist demand, which calls for all wealth created. Think what condition would exist, such revolution, which would destroy both labor and capital and turn our country backward. The real and true workman should shun and abhor Socialism and its dangers.

JUSTICE WHITE'S WARNING.

The warning words of the Hon. Edward D. White, Chief Justice of the United States Supreme Court, have received widespread attention and will doubtless be productive of beneficial results. Chief Justice White insists that the American people must frown down the attempt which is growing in the land to attack the principles of the Government. The very foundation of our free institutions was the belief not in the march of a triumphant democracy, not in the march of popular feeling and popular conduct unrestrained, but that men could restrain themselves, that great principles could be written into our national life which could steer and guide and restrain and hold us and lead us on free from anarchy, full of liberty, with life and property and everything that blesses mankind saved and secured. Look around in this great land today. Where is there a country like this? The world has never seen the equal of it, and the world will never see its endurance if the American people forget the foundation principles of their free institutions because of what they imagine to be an evil here and an evil there and seek to pull down the pillars of the temple in order that they may destroy what they suppose to be a rat within the house. Let us frown down this attempt which is growing in the land. Many thoughtless persons today suppose that everything that is wrong is wrong in the institutions, when without the institutions there would be no right and everything wrong. These are the utterances of a statesman and patriot, a Catholic who loves his God and his country, and are such that all fair-minded Americans can embrace with benefit to themselves and the Government that deserves our earnest and undivided support.

YOUTH AND CRIME.

Parents, educators, social workers, the courts—all are waking up to the fact that a very serious proportion of the crime in our large cities is committed by youths and we are forced to the conclusion that our social and educative machinery are woefully defective, says the Catholic Advance. Our children from twelve to twenty attending our public schools especially in large cities are generally without guidance or correction either at home or at school. Parents depend upon the schools for necessary correction and the schools leave the matter in the hands of the parents and the streets are not conducive to propriety. It would appear from the published reports of crime of a serious and malicious character that the high schools supply the greater proportion

tion of culprits. In Oklahoma City last June two boys, sixteen and twenty, were arrested for attempting to blow up a bank at Yukon with dynamite which they manufactured in the High School laboratory, and they had a suitcase filled with "stuff" enough to blow up the town. An examination into the condition of the schools in Philadelphia by a special commission revealed a most appalling state of immorality and only recently reports from Kansas City gave a condition of rottenness among the children that has brought shame and sorrow to many respectable families and death to one of them. Why close our eyes to the facts? Crime is ever on the increase among our religiously neglected children; so much so that in many cities a special court has been found necessary to deal with children exclusively. Reformatories have to be built everywhere and they are nearly always overcrowded. What efforts have been made to correct this awful condition? None, and none can be made where the element of religion is excluded. Athletics will not reach the seat of the depravity, nor will physiology, nor hygiene, nor individual drinking cups, nor dancing lessons, nor dental examinations, nor will the recent fad which the devil is devising for the more efficient spreading of spiritual evils, namely eugenics. Our public schools are doing everything for the education of the animal in man and absolutely nothing for the spiritual side. The system is pagan and its results are stirring up the people to protest against its fatal defects.

HANDS ACROSS THE SEA.

England has again given an exhibition of its love for America and Americans by barring all American Rhodes school scholars from competition in athletic games, simply because some of our boys captured all the prizes in a recent exhibition.

Congressman Martin B. Madden, of Chicago, has yet much to learn. Addressing one of the Chicago clubs last Saturday the Windy City Congressman attacked President Wilson, saying "the administration is run by Democrats from the South who have had no business experience, because there is no business in the South." Before going further Martin should consult Chicago's leading merchants and manufacturers, who are largely dependent upon the South and find their business men and markets, without which his city would suffer terrible loss. Martin should read the Southern revenue statistics and become enlightened.

Is the memory of the "Manchester Martyrs" being permitted to sink into oblivion? asks one of our exchanges. We hope not, and still we fail to note any present enthusiasm for the observance of the day on which they met their cruel death at the behest of the British Government. November 23 is the date The names of Allen, Larkin and O'Brien should not be forgotten.

Last Saturday in the Police Court eleven barrels of sweet potatoes were ordered destroyed as unfit for food. Commission merchants who hold foodstuffs until they become tainted rather than sell them for reasonable prices should lose their license from the city. Already the poor have suffered too much from this class.

Among the resolutions adopted by the American Federation of Labor, now in session at Seattle, Wash., was one declaring that "nothing could be more injurious to the labor movement than the injection of sectarian religious matters." The convention also gave the Socialists another black eye, defeating them by a vote of 193 to 15.

Money certainly had wings in the Progressive campaign here. Thirty-five thousand dollars was some flight in such a short time.

Louisville Progressives died hard, but they died.

GAYETY THEATER.

For Thanksgiving week Col. Taylor has announced a drama that will appeal especially to holiday theatergoers. "Freckles" has proven to be a popular attraction everywhere and should draw well here. COMMENDED.

Rev. Father P. Ambrose Reger, O. S. B., pastor of the Sacred Heart church at Corbin, in the Covington diocese, has written much for religion, his latest work being "Our Catholic Sisterhoods," a little pamphlet that has won the commendation of our Cardinals, Archbishops and Bishops, one that should be given general distribution and can be secured for the modest price of \$2 per hundred from the author. The commendation of the hierarchy is contained in the following from the Most Rev. Archbishop Bink, of New Orleans, who says:

"Four booklet for Catholic Sisterhoods is a powerful antidote to the tane of foul calumnies and diabolical inventions which the enemies of the church, of truth and common decency, are circulating about the noblest workers of God in the vast fields of religion, education and charity. All fair-minded and observant persons who are not under the sway of the arch-fiend and father of lies, set on store by the ravings of the Menace, yet their honest opinion and judgment on our Catholic sisterhoods will receive a gratifying confirmation from the strong and true words contained in your timely pamphlet."

BOUGHT FIRST TICKET.

For the first ticket issued for the Paulist festival at the Paulist Hall, 844 Wabash avenue, Chicago, Chauncey Oloft paid \$1,000. The proceeds of the fair will be used to lift the debt of St. Mary's church.

FUTURE KAISER COMING.

In Berlin it is understood that the German Crown Prince Frederick William and the Crown Princess Cecilie are making plans to visit the United States next year. The visit naturally depends on the outcome of events. For a long time it has been the fervent wish of the future German Emperor to do this, but at other times it has been impossible to arrange it. The news of the visit, which has heretofore been entirely unknown to Germany—this being the first announcement—has been received with great sympathy. In the German empire, and particularly in Berlin, the United States is generally considered as the sister nation of the fatherland.

OPENING OF NATIONAL.

From Manager Lee Goldberg it is learned that the new National Theater, at Fifth and Walnut streets, will positively be thrown open to the public on Monday evening. President King is very enthusiastic over the prospects of the new National and his enthusiasm is shared by a number of Louisville business men who are financially interested in the project. The National represents an investment of \$200,000, and there is not a theater anywhere that can surpass it in beauty, comfort and capacity. The policy will be to present seven acts of vaudeville at prices ranging from ten and twenty cents for the evening performances to a straight ten cents admission for the matinees, exclusive of box seats. There will be a continuous performance of two shows every evening and also on Saturday and Sunday afternoons. The classy make-up of the opening bill indicates the high quality the National is prepared to present.

EUROPEAN TEACHERS.

The Ursuline nuns of Brown county, Ohio, have been very fortunate in securing this year six professors for their staff of teachers. They have received two accomplished young ladies—lay teachers—from France, who seem to be fully imbued with the love of their profession, and who, like all lovers of intellectual development, prefer the charms of a secluded spot to the gaiety of city life. Last week brought to the convent two proposed nuns, as teachers, from the famous Ursuline Convent of Innsbruck in the Tyrol. One is a professor of classic music, both vocal and instrumental; the other is a professor in drawing and painting, while both are proficient in German and French, fully competent to teach both. A number of Kentucky girls have been educated in this celebrated convent, which is beginning to be recognized in Europe as one of the first institutions of learning in the United States. This week Brown county expected to receive two young ladies from Ireland as novices, both graduates of the University of Oxford. All this is the result of the visit of Mother Gabriel and Sister Monica to Europe during the summer months.
